SWAN

Career Opportunity

_____

BI ENGINEER

Duties will include:

- Design, develop, maintain and optimise ETL solutions, BI Reports and Dashboards
- Gather business reporting requirements and prepare clear specification for business sign off and report development
- Identify data governance issues and assist in solving those issues
- Develop in-depth understanding of underlying data, data structures, and business uses to ensure reports meet client needs
- Produce and maintain user and technical documentation

Qualifications and Experience:

The ideal candidate should possess the following profile:
- A Degree in Information Technology or relevant field
- Advanced SQL skills (MS SQL Server preferred, AS400/DB2) with Strong database-related development skills (complex SQL queries, complex store procedures and user-defined functions in SQL Server)
- 4+ years developing BI Solutions with experience using Microsoft SSIS/SSAS/SSRS/PowerBI
- BI Applications experience, particularly in the Insurance Sector would be a definite advantage
- Experience in Sharepoint or AWS is welcome

If you feel challenged by the above positions, and believe you have the required profile, please send your application letter and a full Curriculum Vitae online quoting "**BI ENG"** the following the respective reference in the subject line to

hr@swanforlife.com

Closing Date: 14 January 2022

The Company reserves the right:
1.   To convene only the best qualified candidates to participate in the selection exercise.
