## 4. PARTICULARS OF THE RIGHTS ISSUE

### 4.1 Background to and purpose of the Rights Issue

Since 2007-2008, CHSL has expanded its operations through the implementation of a development strategy focusing on the geographical diversification of its hotel assets. Key achievements over that period included:

- Opening of three new flagship properties; Constance Halaveli, Maldives ("CHM"), Constance Ephélia, Seychelles ("CES") and Constance Moofushi, Maldives ("CMM");
- Doubling the room count for both owned and managed properties to reach approximately 1,000 rooms;
- Extending the marketing reach, with a particular focus on non-traditional markets; and
- Developing a focused brand positioning strategy.

This expansion of the business was mostly financed by bank loans and temporary facilities, and cash flows generated by the Group. Over that period, the performance of the Group has however been adversely affected by the global economic crisis, inherent issues affecting specific markets in which it operates and delays in the launch of certain projects.

The Board has proposed to undertake a MUR 1,234 million rights issue to raise the funds required to strengthen the balance sheet of the Company and thus further enhance shareholder value.

The proceeds from the Rights Issue will be used for repaying temporary loan facilities and financing the anticipated capital requirements in its associates operating in the Seychelles.

### 4.2 Terms of the Rights Issue

#### 4.2.1 Shareholders' approval

The Rights Issue is subject to approval by shareholders of the Company at a special meeting to be held on 5 November 2014.

The shareholders of CHSL registered at close of business on 24 November 2014 shall be entitled to subscribe for 5 New Ordinary Shares for every 7 shares held at that date.

All the New Ordinary Shares shall be in registered form and the register shall be kept by ECS Secretaries Ltd. The shares shall be in either certificated or dematerialised form.

As of the date of this document, the stated capital of CHSL is made up of 63,964,454 fully paid up ordinary shares. Upon completion of the Rights Issue, CHSL is expected to have a stated capital made up of 109,653,349 ordinary shares.

#### 4.2.3 Issue price

The Board of Directors of CHSL has priced the Rights Issue at MUR 27.00 per share, equivalent to a discount of 21.7% to the share price of MUR 34.50 and a discount of 13.3% to the three months volume weighted average share price of MUR 31.16, both discounts calculated as at 8 August 2014, being the date when the Rights Issue was made public by the cautionary announcement of the same date.

## 5. ABOUT CHSL

### 5.1 Description of the business

CHSL started its hotel operations in 1975 with the opening of its first hotel in Mauritius, the Constance Belle Mare Plage Hotel. The Group has since then expanded into a major hospitality player in the Indian Ocean with a presence in four countries and a portfolio comprising seven hotels and resorts under its management. The Group turnover amounted to MUR 2,564 million at 31 December 2013 (2012: MUR 2,007million).

The growth of the business has been achieved through the implementation of a strategic plan built around the following four axes.

- Geographical diversification;
- Opportunities for hotel management;
- Developing the Constance Hotels brand; and
- Quality of service.

#### 5.1.1 Geographical diversification

The Group was a pioneer in expanding in the Indian Ocean region, first venturing outside Mauritius in 1999 to open the Constance Lémuria, Seychelles. It has leveraged its knowledge, expertise and reputation developed through its hotel operations in Mauritius to further expand and invest in the region. Today CHSL is well established in all major tourist destinations in the Indian Ocean islands. It owns, operates and manages four hotels in Mauritius and Maldives and has equity participation and management contracts in three hotels in the Seychelles and Madagascar.

In July 2013, CHSL acquired 65% of the share capital of The Waterfont PVT Ltd, the holding company of CHM, for USD 17.2 million, taking full ownership of the hotel. Through this acquisition, CHSL further strengthened its market position in Maldives, a fast growing tourism industry in the region.

In line with its long-term vision of operating a number of quality hotels in the region, CHSL will, in due course, continue with its diversification strategy and intends to look at further opportunities for expansion as and when they arise, with a focus on Middle East, Africa and Asia. To this end, CHSL aims to leverage its management expertise, recognised by the industry, to secure additional opportunities.

**Table 6: Portfolio of hotels as at 31 December 2013**

<b>Hotel</b>	<b>Ownership</b>
Constance Belle Mare Plage	100%
Constance Le Prince Maurice	100%
Constance Moofushi, Maldives	100%
Constance Halaveli, Maldives	100%
Constance Lémuria, Seychelles	25.4%
Constance Ephélia, Seychelles	25.4%
Constance Tsarabanjina, Madagascar	37.5%

### 5.1.2 *Developing the Constance brand*

Product positioning and brand awareness is vital to the success of the Group and over the past years, CHSL has carried out a complete rebranding exercise leading to “Constance Hotels and Resorts”, with two distinctive collections, the ‘Unique’ and ‘Ultimate’ to better distinguish each market segment.

- Unique Resorts invites guests to experience unique and unrestrained moments at distinctive resorts. Constance Belle Mare Plage, Constance Ephélia Seychelles, Constance Moofushi Maldives and Constance Tsarabanjina Madagascar are part of the Unique brand; and
- Ultimate Hotels is more luxury oriented and affluent with fine attention to detail to meet guests’ ultimate expectations. Constance Le Prince Maurice, Constance Lémuria Seychelles and Constance Halaveli Maldives are part of the Ultimate brand.

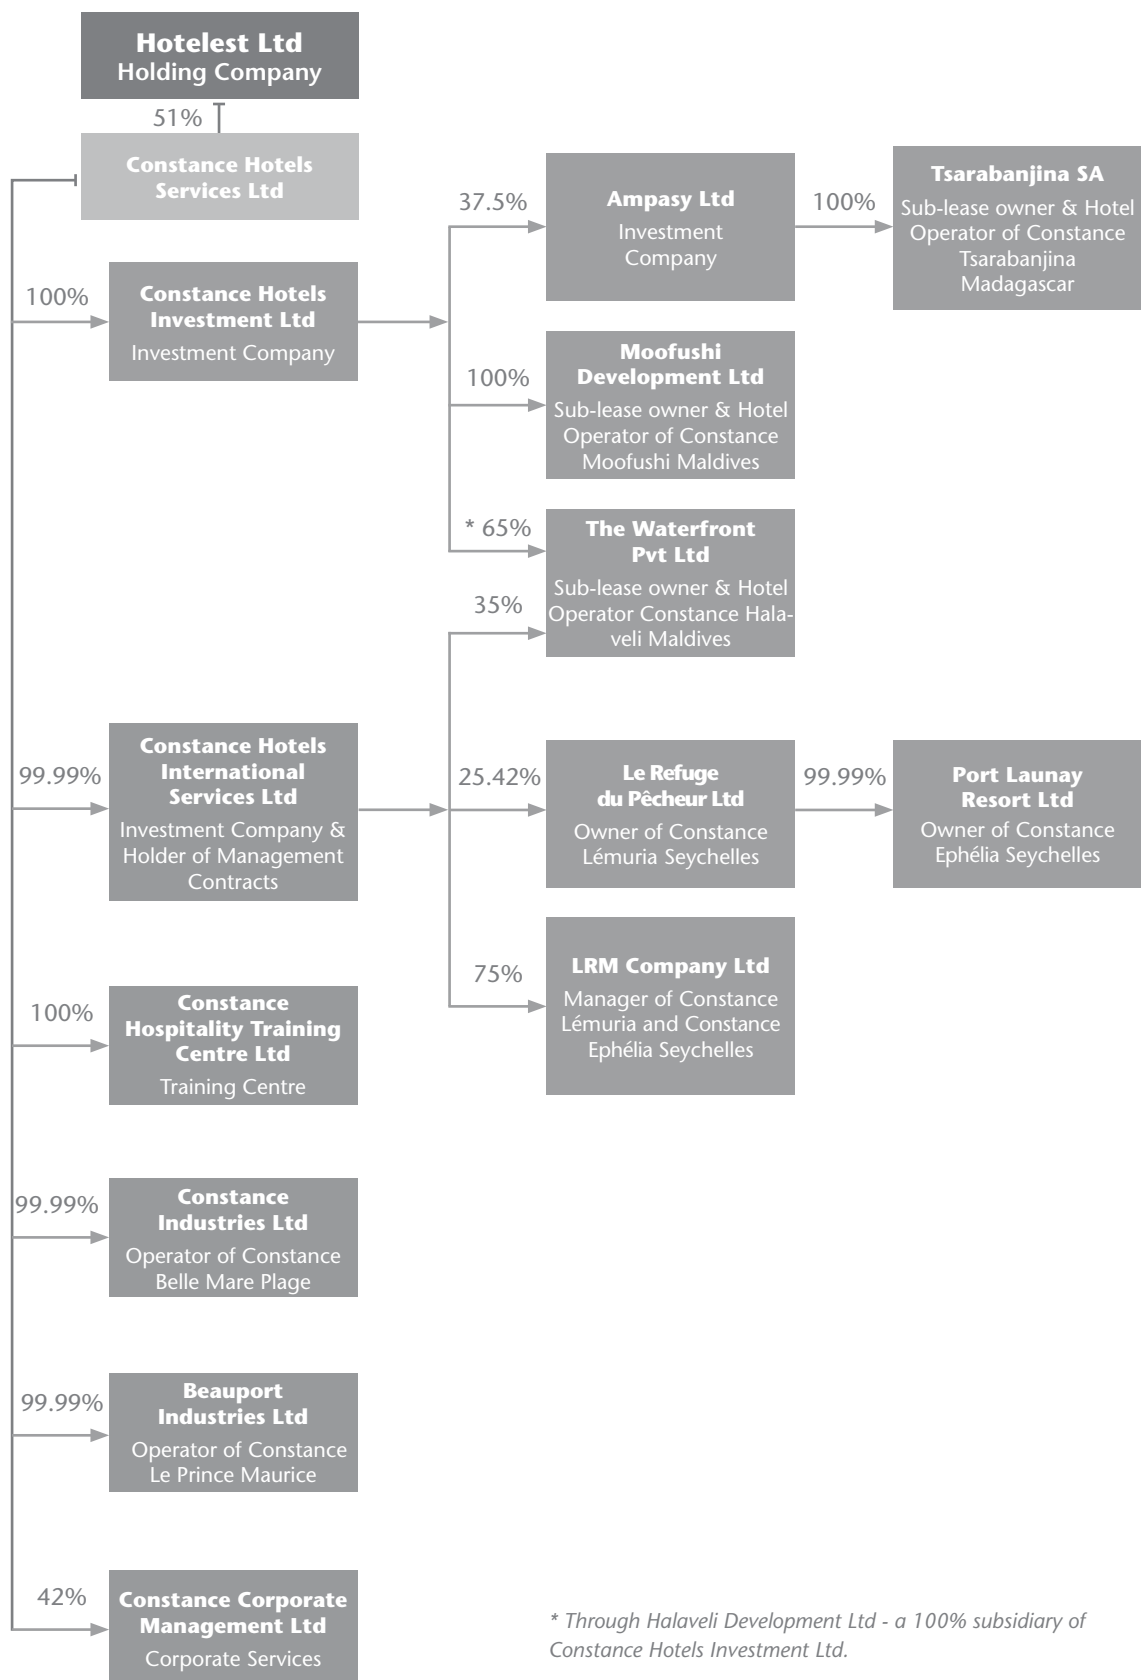

Since January 2013, the Ultimate hotels are all members of Leading Hotels of the World (“LHW”), which is the largest luxury hospitality organisation in the world. LHW is a full-service hotel consortium, which supports sales and marketing, advertising and public relations, financial services, quality control, and hotel inspections for its member properties. The affiliation with LHW is an acknowledgement of the Group’s standard and quality of service.

The Group is benefitting from the investments made in its brand and will continue investing with the aim of becoming the brand of reference for the Indian Ocean. It was recognised as the top small luxury hotel brand in ReviewPro’s 2014 report. ReviewPro is the leading independent provider of online reputation and social media analytics for the hotel industry tracking the best luxury hotel brands around the world.

The Group revenues increased from MUR 2,007 million for the year ended 31 December 2012 to MUR 2,564 million for the year ended 31 December 2013. This improvement in revenues was mostly attributable to the consolidation of CHM in the last six months of the year, following the acquisition of the additional 65% stake in July 2013, as well as positive revenue growth from most operating jurisdictions.

Operating profit increased from MUR 243 million in FY12 to MUR 279 million in FY13. With the heavy burden of finance costs and the negative contribution from our associates, the Group reported losses for both FY12 and FY13. In the year ended 31 December 2013 the loss was partially offset by a one-off consolidation adjustment arising from the CHM transaction.

CHSL reported improved results for the half year ended to 30 June 2014 with group revenues reaching MUR 1,863 million compared to MUR 1,115 million at 30 June 2013. The growth is attributed to the improved performance of the Company's hotels in all destinations, additional revenues from one-off group events as well as the consolidation of CHM which was only taken as from July 2013 last year. The operating profit at 30 June 2014 increased to MUR 401 million from MUR 120 million in 2013, resulting in a profit after tax of MUR 175 million compared to a loss of MUR 88 million for the same period last year.

## 6.2 Borrowings

In the context of the Group's expansion and re-development plan, the Group geared up to finance the renovations at CLPM and the acquisition of CHM. As a result, total borrowings moved from MUR 4,104 million in FY12 to MUR 6,038 million in FY13.

**Table 11: Borrowings**

Bank loans	4,322	3,504
<b>Total borrowings</b>	<b>6,038</b>	<b>4,104</b>

All Group borrowings are secured.

### 6.3 Investments and Property, plant and equipment

Net capital outlay was MUR 784 million for FY13 compared to MUR 283 million for FY12. These capital outlays were made principally for the respective acquisition of the additional 65% stake in CHM and the renovation of CLPM.

The Group is also planning to refurbish some of its resorts, which have been operating for some time. The amount is yet to be finalised and approved but is expected to be around MUR 480 million.

### 6.4 Dividend policy

The Company's dividend policy is to distribute to its shareholders, whenever possible, an adequate dividend, subject to the Company's performance, cash-flow position and capital-expenditure requirements.

### 6.5 Dividends, NAV and Earnings per share

The financial ratios for the last two financial years and the half year ended 30 June 2013 and 2014 were as follows:

## 7. RISK FACTORS

The risks and uncertainties described below represent those the Directors consider to be material:

### 7.1 Financial risks

The Company through its subsidiaries are exposed to a variety of financial risks:

- Currency risk:* The Group operates both locally and in the region, and derives most of its income in foreign currencies namely Euros, Pound Sterling and American Dollars. The volatility of its currencies can impact the Company's profitability.
- Credit risk:* The Group's credit risk is primarily attributable to its trade receivables. The Group has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers.
- Interest rate risk:* The Group's borrowings are exposed to interest rate risks as it borrows mainly at variable rates.
- Liquidity risk:* Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivery of cash or another financial asset. The Group aims at maintaining flexibility in funding by keeping committed credit lines available.

### 7.2 Reputation

Any event that materially damages the reputation of the Company and/or any failure to sustain its appeal to its shareholders could adversely affect the market value and attractiveness of the Company. This is managed by the Board and senior Management through the enforcement of a strict ethical code of conduct and good corporate-governance practices throughout the Group.

### **7.3 Financial and regulatory compliance**

Non-compliance with financial and regulatory requirements may result in fiscal penalties and damage the Company's image on the market. In mitigation, a robust programme of internal monitoring has been put in place by the Compliance and Accounting functions to ensure that financial and regulatory requirements are adhered to.

### **7.4 Credit standing**

The Company is reliant on having access to credit facilities to meet its capital requirements and effectively manage its statement of financial position. If the Company does not manage its finances in a responsible manner, it may lose its credibility and, as a result, its favourable terms and ability to borrow. To ensure prudent financial management the Company prepares detailed budgets and projected cash flows, which are reviewed on a regular basis by the Audit Committee and quarterly by the Board, both of which also scrutinise Account Receivables and Payables.

### **7.5 Personnel**

The Company's growth and success depend on its ability to identify, secure and retain top-quality Management and highly skilled employees. Any failure in this regard could undermine the Company's ability to implement its strategic business plans and remain profitable. To mitigate this risk we apply a policy of recruitment and recognition of performance that is fair, transparent and based on merit. Also, we strive to ensure we have an attractive and safe working environment and a competitive remuneration structure. We also develop, monitor and maintain succession planning for key roles.

### **7.6 Health & Safety**

All reasonable precautions are taken to provide and maintain the health and wellbeing of our guests and employees. Controls are in place to ensure compliance with international good practices, all statutory requirements and all legally binding codes of practice. Appropriate and ongoing training is provided to staff and the highest standards of care are applied to the services and products offered to our guests.

### **7.7 Political, economic and financial market events**

Occupancy levels and room rates, and consequently the Company's operations and financial results, could be adversely affected by events that reduce international travel, such as natural disasters, acts of terrorism, increased transport and fuel costs, closed-sky policies, political instability, economic crisis, and currency and interest-rate fluctuations. Changes in the macroeconomic and industry environment are regularly assessed by the management team and quarterly by the Board to ensure prompt decisions are taken to safeguard the value of the Company's brand and assets.

### **7.8 Industry risk**

The tourism industry in general is sensitive to fluctuations in the economy. The hotel sector in particular may be adversely affected by changes in global economies, political unrest, excess hotel-room supply, reduced international demand for hotel rooms and associated services, uncompetitive open-sky policy, competition in the industry, Government policies and regulations, fluctuations in interest rates and foreign-exchange rates, and other natural and social factors. We are at present experiencing the adverse impact of a number of those negative factors, notably: the global recession in the eurozone; a weak euro; the over-supply of hotel rooms; heavy room-rate discounting; and insufficient air seats. This risk is mitigated externally through regular meetings with the appropriate industry drivers and government ministries, either directly or through industry associations, and internally through daily performance monitoring and application of different marketing strategies.

### **7.9 Geographical concentration**

Failure to expand geographically could adversely affect the Company's financial results. The Company has operations in four different jurisdictions and continually assesses new opportunities across the region and beyond.

### 7.10 Social responsibility

The reputation of the Company and the value of its brand are influenced by a variety of factors, including the Company's ability to demonstrate sufficiently responsible practices in such areas as sustainability, responsible tourism, environmental management, Health & Safety, and support for the local community. CSR programmes and initiatives are tailored to the need of the community and society in the region where the Company operates. Regular review and reporting over the progress of CSR programmes and achievements, as well as new potential projects, are brought to the CSR Committee of Fondation Constance and, on a quarterly basis, to the Board through the Corporate Governance Committee.

### 7.11 Technologies and systems

To varying degrees, the Company is reliant upon certain technologies and systems for the smooth and efficient running of its business. Disruption to these technologies or systems could adversely affect the quality and standard of the Company's product and service offering, as well as the Company's productivity, operating costs, and efficiency. To mitigate this risk the Company has an IT Disaster Recovery Plan that caters for prompt restoration to normal service to minimise any adverse impact on the business.

### **10.3 Pre-emptive rights**

Shares issued or proposed to be issued by the Company that rank or would rank as to voting or distribution rights, or both, equally with or prior to shares already issued by The Company shall, unless otherwise provided in the resolution approving the issue under paragraph 10.2.2 above, be offered to the holders of shares already issued in a manner which would, if the offer were accepted, maintain the relative voting and distribution rights of those shareholders in accordance with the provisions of Section 55 (1) of the Companies Act 2001. Such an offer shall remain open for acceptance for a reasonable time, which shall not be less than fourteen days.

New shares offered to shareholders pursuant to the paragraph above and not accepted within the prescribed time may be disposed of by the Board in such manner as it thinks most beneficial to the Company.

### **10.4 Variation of rights**

If at any time the capital is divided into different classes of shares, The Company, conformably to the provisions of Section 114 of the Companies Act 2001, shall not take any action which varies the rights attached to a class of shares unless the variation is approved by a special resolution, passed at a separate meeting of the shareholders of that class, or by consent in writing of the holders of seventy-five per cent (75%) of the shares of the said class.

To any such meeting, all the provisions of the constitution relative to general meetings shall apply "mutadis mutandis" provided however that the necessary quorum shall be the holders of at least one third of the issued shares of the class concerned (but so that if, at any adjourned meeting of such holders, a quorum is not present, those shareholders who are present shall constitute a quorum).

### **10.5 Transfer of shares**

There shall be no restrictions on the transfer of fully paid up shares in the Company. Transfers and other documents relating to or affecting the title to any shares shall be registered with the Company without payment of any fee.

### **10.6 Distributions**
