The quarterly condensed financial statements have been prepared using the same accounting policies as for the statutory financial statements for the year ended 31 December 2013, except for the adoption of published Standards that are now effective.

1. Brief review of the activity and the results

STATEMENTS OF CASH FLOWS

- The Harel Mallac Group, with activities in Mauritius, Burundi, Madagascar, Rwanda, Tanzania and Zambia, employs over 1400 employees and represents over 250 brands. It is active in various key sectors of the local economy, namely Chemicals, Agribusiness, Information Technology, Engineering, Printing, Travel and Leisure and Retail amongst others.
- Harel Mallac is maintaining its steady return to profitability by focusing on its strategic imperatives which also include a reinforced international presence
- compared to the corresponding period last year.
- However, the encouraging results of the Group's overall activities have been mitigated to a certain extent by the negative financial performance of Compagnie des Magasins Populaires Limitée, with its two new Monoprix sales outlets still in the start-up phase. The organisational structure has been further reinforced and the marketing strategies are being implemented to best service the identified markets. These measures will show results in due time.
- The Group's investments in Africa are facing the inherent challenges associated with doing business on this By order of the Board continent. However, an improvement for most of our international operations has also been registered during this third quarter. Regarding the Group's investments and in line with our overall strategy to concentrate on selected industries. Hors Mallor released industries. selected industries, Harel Mallac released its shares in Mauvilac Industries Ltd. Our recent investments in the 3 November 2014 hospitality industry are already yielding positive and rewarding results.

We expect the fourth quarter to maintain its course on the positive trend noted during the third quarter.
