3. BRIEF REVIEW OF THE ACTIVITIES AND RESULTS

GROUP RESULTS

Group turnover for the year improved by MUR 577.8 M (13.5%) to reach MUR 4,860.5 M (MUR 4,282.7 M in 2015), while profit before finance costs increased by MUR 56.3 M (14%) to reach MUR 459.8 M (MUR 403.5 M in 2015). Overall, the Group posted a profit after tax of MUR 368.2 M as compared to MUR 726.4 M last year as a result of lower contribution from our associates (MUR 52.4 M compared to MUR 287.0 M in 2015) and a non-recurrent reversal of impairment of MUR 166.1 M in 2015 in relation with Sucrivoire, our associate in Côte d'Ivoire.

During the year the Board commissioned an independent valuer to revalue the land and buildings belonging to Terragri Ltd to reflect their fair value based on agricultural use, adjusted for the time, effort and risks. The land and buildings have been revalued at MUR 8.5 Bn, excluding investment properties, and the Directors are of the opinion that this basis is appropriate in the present circumstances.

SUGAR

Our sugar operations in Mauritius experienced an increase of 26.6% in turnover (MUR 1,353.5 M as compared to MUR 1,069.2 M in 2015) and achieved a segment profit of MUR 45.2 M, as opposed to a loss of MUR 8.9 M in 2015. This positive turnaround is mainly attributable to a better sugar crop, increased special sugars production and improved sugar prices.

The contribution from our associate in Côte d'Ivoire decreased by MUR 25.4 M as a result of a reduction in crop yields for the period under review.

While turnover was at par with last year, profits improved on account of favourable electricity off-take from CEB and higher coal usage efficiency.

As a result of an encouraging growth in turnover from commercial activities and of an improved performance of the distilling operations, the segment posted better results for the year, which were nonetheless adversely affected by costs associated with the launch of Grays Uganda.

OTHERS

The profitability of this segment was negatively impacted by the poor performance of our associates engaged in

construction and investment activities. 4. PROSPECTS

We expect most of our segments, with the exception of sugar, to perform as well as last year. The 2017 standing crop has suffered from adverse climatic conditions and, as at to date, we expect sugar accruing to the group to be less favourable. It is anticipated that associates results would improve in the coming year. We shall strongly pursue our ongoing efforts towards improving the operational efficiency of our core operations.
